Edwin P. Lister  
P.O. Box 651  
Delta, UT 84624

Dear Mr. Lister:

On June 19, 1992, a field compliance inspection was conducted at the site of your mining notices, UT-054-91-15N and UT-054-91-28N, which includes your claims, Bullseye #1, #2 and #4, Buckskin #2, and Bandstone #1 (UMC Numbers 102506, 102510, 283479, 284144, and 277492), in T. 14 S., R. 11 W., Secs. 28, 33, and 34. These notices were accepted by our office on August 9 and October 8, 1991, under the 43 CFR 3809 regulations for surface management.

During the inspection, small changes were noticed on the claims Bullseye #4, Buckskin #2, and Bandstone #1. A larger disturbance was noted on the west side of the hill on the Bullseye #1 claim. No evidence of drilling on the Bullseye #1 claim was apparent.

If you still plan on actively operating under your notices, please update your activity with this office on the anniversary of your notices. Enclosed are forms for filing Notices of Intent, and maps of the area. Please indicate on the maps:

1. Location of exploratory and other mining related activities for which you are responsible.
2. Location of quarrying done by Diversified Stone and their future plans.
3. Location of your completed reclamation.

If Diversified Stone plans to continue their operations, we would like to meet with you to discuss the removal and the future plans for the "bandstone". Please contact us to make an appointment. If possible, we would also like to meet with representatives from Diversified Stone.

Thank you for submitting your notice and for your support in proper management of public lands. We are looking forward to receiving your updated notices. If you have any questions regarding this letter or would like assistance filling out the enclosed forms, please call Christina Reid at 743-6811.

Sincerely,

SIGNED

Rex Rowley  
Area Manager
